Morning Courses And Descriptions

Foundations Of Access Control Power Supplies And Accessories

Gene Tiebout of ASSA ABLOY

8:00 am - 5:00 pm: **\$100.00**

This hands-on course introduces the fundamentals of access control power supplies and accessories. Participants will learn how to select, design, and wire solutions for small and large applications, with a focus on power distribution, battery backup, and fire alarm integration. Through guided exercises and real-world troubleshooting, learners will build confidence working with solutions from LifeSafety Power while applying industry best practices.

- Identify key components of an access control power supply system and explain their functions
- Demonstrate proper wiring and installation techniques for access control power supplies and accessories
- Diagnose and troubleshoot common power supply issues
- Interpret wiring diagrams and apply them to real-world installation scenarios
- Construct a complete access-controlled system using electrified locking hardware, switches, and other equipment

Servicing And Troubleshooting Mechanical Safe Locks

Seth Blumberg

8:00 am - 5:00 pm: **\$175.00**

This 8 hour course will provide students with an understanding for servicing and troubleshooting mechanical grade 2 safe locks. Some of the topics covered are:

- Combination changing procedures
- Determining the dialing sequence
- Dialing procedures
- Combination changing procedures for locks
- How to install and repair grade 2 locks

101: Basic Electricity And Wiring

Jeff Brooks of IML Security Supply

8:00 am - 12:00 pm: **\$50.00**

If you are new to the electronic world, this course is perfect for you. This 4-hour course will provide students with an understanding of electricity, how it is distributed, what equipment to test and how electrical components work.

The goal of this basic electrical training course is to teach students how to reduce electrical equipment downtime, improve overall efficiency and safety, and fix problems they've been unable to solve on their own. Topics covered in this course include:

- Understanding the different types of electricity
- Basic DC electrical circuits
- Basic Circuit wiring and Multimeter usage
- Understanding concepts
 - Normally open
 - Normally Closed
 - Fail Safe
 - Fail Secure
- Series & Parallel Circuits

Cylindrical And Mortise Locks: Things You Must Know To Install And Service

Erik Cameron of Dormakaba

8:00 am - 12:00 pm: **\$50.00**

This course is intended to familiarize the attendee with installing and maintaining Cylindrical Locks and Mortise Locks. The training session will include review of Grade 1 requirements relating to manufacturing and use, proper selection of hardware, hands-on experiences for applications and options for adding features in the field. Subjects to be covered include:

- Overview of Cylindrical & Mortise Product Types & Options
- Lockset Functions & Applications
- Mortise Locks Installation/Assembly
- Cylindrical Locks Installation/Assembly
- Troubleshooting Cylindrical & Mortise Locks

Low Energy Automatic Operators, Exit Devices And EasyKits

Russell Hansmann of DETEX

8:00 am - 12:00 pm: **\$50.00**

Detex offers a wide range of security door hardware products that are durable, easy to install and innovative. During this course, you will learn requirements, troubleshooting, programming and installing an operator.

This session will also cover what other equipment may be required such as electrified panic hardware, wireless push buttons, etc. This course will focus on Exit Alarms, showing you how to provide a secure locking system, quickly adding alarms on secured doors and will provide hands-on installation.

Servicing Hollow Metal Doors And Frames

Dave Thielen of IML Security Supply

8:00 am - 12:00 pm: **\$50.00**

This course will introduce students to Hollow Metal Doors and Frames, including nomenclature, design, installation, repair, and servicing techniques of various types of doors and frames. There will be a demonstration of tools as well as lecture, discussion and videos of troubleshooting and repair techniques.

The hands on portion will give the student some valuable experience in installing locks, repairing hinges, retrofitting hardware, preventing door collapse, cutting doors, and other profitable skills.

Wednesday, September 23rd

Morning Courses And Descriptions

Safe Manipulation

Seth Blumberg

8:00 am - 5:00 pm: \$175.00

HELD AT
IML BRANCH

Manipulation is the art of opening combination locks, without prior knowledge or information as to the present combination. It does not cause any damage and leaves no evidence of entry.

Each student will learn when to manipulate and will understand how picking, reading and impressing are related to safe manipulation. The class will cover proper combination lock terminology. The student will become competent in dialing diagnostics and visualization of the internal workings of a combination lock. Students will understand the principles of manipulation, become familiar with manipulation aids and gain confidence in manipulation.

Advanced Breaking And Entering

Dave Thielen of IML Security Supply

8:00 am - 12:00 pm: \$50.00

This course is perfect for people who want to learn the tips, tricks and techniques of the trade. Demonstrations of bypass techniques covering some of the most popular residential and commercial lock sets will be performed.

- Interchangeable Cores
- Panic Devices
- High Security
- Mortise Locks
- Storefront Locks

You will also review templating for drilling rim, mortise cylinders, high security and office equipment

Alarm Lock: Trilogy Lock Installation And Repair

Andy Phelps of Alarm Lock

8:00 am - 12:00 pm: \$50.00

This course is designed for the beginner or experienced technician and covers the proper installation technique along with some tips for an easier installation. We will cover how to repair the Alarm Lock Trilogy mortise and cylindrical locks, discuss what parts are replaceable and how to correctly remove and replace those parts. The instructor will also share some tips on how to make the repair process easier.

Glass Opening Solutions

Joe DeSisto of ASSA ABLOY

8:00 am - 12:00 pm: \$50.00

With the increasing popularity of glass enclosures being installed, finding solutions to hang, secure, control, and protect glass openings is challenging.

This 4-hour workshop is designed to inform the attendee through lecture and hands-on instruction about the solutions available in the market-place. The class will cover pivots, sliding-door hardware, locksets (mortise, pulls, and panic), closers (mechanical and automatic), and protecting trim.

Understanding Access Control And Components

Jeff Brooks of IML Security Supply

8:00 am - 12:00 pm: \$50.00

This 4 hour training course will navigate students through Access Control and what is needed to complete a full Access Control system. You will cover controllers, readers, Power Supplies, locks, accessories and other items that can be wired in. You will also review a checklist of things to look for before setting up your system to make sure you have everything you need to set up or quote.

Von Duprin Mechanical And Electrified Exit Devices

David Holtzclaw of Allegion

8:00 am - 12:00 pm: \$50.00

Life safety and exit hardware go hand in hand. That may be the most compelling reason to attend a training class on exit devices. But, it's certainly not the only reason. Today, most facilities use some form of electrified exit hardware for access control, security, and accessibility. So, whatever your interests, join us for this workshop on Von Duprin Exit Hardware, featuring the Von Duprin 98/99 Series devices. Topics Include:

- Exit device terminology and Von Duprin nomenclature
- Essential components of an exit device
- Outside trim options
- Popular electrified exit devices
- Conversions and field adjustments
- Servicing tips

ALLEGION

THANK YOU TO OUR FOOD SPONSOR ALLEGION

Wednesday, September 23rd

Afternoon Courses And Descriptions

Continuous Hinge Installation

Chris Orme of Select Hinges

1:00 pm - 3:00 pm: **FREE**

This course will cover everything you need to know to get started using continuous hinges. Students will cover what a continuous hinge is, the benefits of a continuous hinge and how to continuous hinge works.

Hands-on Instructions will feature a demonstration showing students how to install a continuous hinge on a full door.

SAVI Certification: Institutional Security Survey

Andy Phelps of Alarm Lock

1:00 pm - 3:00 pm: **FREE**

This course will provide students with the knowledge to conduct a non-product-specific SAVI (School Access-control Vulnerability Index) review of a school to show the presence, or lack thereof, of systems and structures aimed at limiting an active shooter from gaining access.

Students will be shown how to properly conduct a site survey and what to look for during the survey. Items on the index will be broken down into the three main areas for review: exterior protection, interior protection and interior locking.

At the conclusion of the course, the student will be certified to conduct a SAVI report and will be awarded a certificate of completion.

Decoding And Lock Pick Opening With Original Lishi

Mike Kenessey of Lishi

1:00 pm - 5:00 pm: **\$50.00**

This 4 hour hands on course offers exercises with specially designed cylinders to gain practical experience and understanding of lock picking and decoding. Students will learn to pick by feel, learn new picking techniques, accurately decode a lock and perform lock bumping. Also covered in this course will be Lishi Residential picks and AutoProPad programming.

Upon completion, students will have a greater understanding of lock picking, for both pin and disk tumbler cylinders. Tools and cylinders will be provided for this course.

Door Control: A Close-Up Look At Door Closers

David Holtzclaw of Allegion

1:00 pm - 5:00 pm: **\$50.00**

A door not in control can cause more headaches and safety issues than you have hours in a day. You're not alone in your concerns about fire life safety, security, smooth door operation, and heating/air conditioning costs. You'll find the more you know about the door closer, the more you will appreciate its role in keeping the occupants of your facility safe.

- How a Closer Works
- Selecting the Right Closer for an Opening
- Fine-Tuning the Speed and Power Settings on LCN Closers
- Other Door Control Products that Work Alongside the Closer

Lock Picking Tips And Tricks

Dave Thielen of IML Security Supply

1:00 pm - 5:00 pm: **\$50.00**

Lock picking is the art of unlocking a lock by analyzing and manipulating the components of the lock device and not damaging the lock. This course offers hands-on exercises with specially designed cylinders to gain practical experience and understanding. Lock bumping will also be demonstrated and performed by the students.

Upon completion, students will have a greater understanding of lock picking, for both pin and disk tumbler cylinders. Tools and cylinders will be provided for this course.

Fire Door Inspections and Repair

Aron Fleischmann of NGP

3:15 pm - 5:00 pm: **FREE**

This 2 hour course will cover topics that include:

- How to bring your fire doors back in to code with simple to use fire door accessory products from National Guard.
- Overview of the fire door accessories.
- How to check your door to make sure it is within code.
- How to bring your door back in to code

You will also receive hands on installation of the Gap Guard products.

Security And Low Energy Door Sensor Integration

Justin Dunham of BEA

3:15 pm - 5:00 pm: **FREE**

This hands on class will provide the students with the BEA BR3-X logic module and how to program the module to function in different access control applications from Interlock, Sequencing, Restroom and Openings utilizing operators and access control.

In addition, you will review the aspect of providing safety on low energy doors and the latest technology to working with BEA laser based sensors.

U.S. General Services Administration

Meals and incidental expenses (M&IE) rates and breakdown

Primary destination	County	M&IE total	Breakfast	Lunch	Dinner	Incidental expenses	First and lastday of travel
Kansas City	Jackson / Clay / Cass / Platte	\$80	\$20	\$22	\$33	\$5	\$60.00

In my research, after seat fees, bag fees, transportation to and from the airport, the difference in pricing between flying and driving is less than 10% of total cost. Flying would be an even costlier option if Pete opted to rent a car for the 4 days he would be at the convention.

Pete prefers to drive his personal vehicle so no rental car fees would be incurred. This will allow him to travel locally, off site, outside of the training schedule.

Please see the attached documentation

and want to continue with this purchase.

An UberX from the Ameristar Casino Hotel Kansas City to Kansas City International Airport (MCI) typically costs **between \$35 and \$50** under normal demand conditions. [1, 2]

Trip Overview

- **Distance:** Roughly **21 to 24 miles** depending on the route.
- **Travel Time:** Approximately **25 to 30 minutes** in standard traffic. [3, 4]

Estimated Pricing by Vehicle Class

The cost will vary depending on the tier of service you choose:

- **UberX (Standard):** \$35 – \$50
- **Uber Comfort:** \$45 – \$60
- **UberXL (Large Groups):** \$60 – \$80
- **Taxi Alternative:** Traditional local taxis for this same route generally run significantly higher, between **\$90 and \$110**. [1, 2, 5]

Factors That Affect Your Fare

- **Surge Pricing:** Fares can jump significantly during peak travel hours, bad weather, or high-demand periods at the casino.
- **Uber Reserve:** Scheduling your ride in advance ensures a driver is locked in, but Uber typically charges an extra booking fee for reservation convenience.
- **Airport Fees:** Trips to and from MCI include a standard airport commercial curbside fee (\$3.00) integrated directly into your upfront app price. [11, 12]

To get an exact, real-time quote for your specific departure time, you can input your destination directly into the Uber Price Estimator or check your live Uber smartphone app. [13, 14]

Are you traveling **with a large group or a lot of luggage**, or do you need to know where the **designated rideshare pickup zone** is at the airport for a return trip?
