RE: Critical Needs Funding 2024

Thank you for your continued support of the Lubbock County Fire Departments to include Abernathy Fire Department. This year's critical needs funding application for Abernathy includes a UTV/ATV for the purpose of fire and rescue operations. This vehicle if approved will supplement rural fire operations to those areas that are hard to access because of rough terrain, vegetation, weather, or other issues that normally arise during these types of events. One example of where this will assist us is reducing the damage to full-size vehicles trying to access hard to reach areas such as we had this past year on a fire near County Road 5200 and FM 2528 where we damaged the front end of a brush truck.

The vehicle will also be used if needed for vehicle fires and other types of fires during events where vehicles are gathered in areas where maneuverability of larger apparatus is difficult such as school events and community gatherings. The UTV/ATV will also be used for patient transport during special events and will also be available to transport rescue tools to off road locations during major vehicle accidents. We also feel that this piece of equipment will be a great resource for recruitment and retention of new and younger personnel during a time when finding and keeping volunteers is difficult.

The trailer will be used to transport the vehicle and water for the suppression system to other rural areas if the need arises and the vehicle is requested through mutual aid requests.

The Genesis ram rescue tool will supplement our already existing line of battery powered extrication tools.

Again, thank you for your assistance and if you have any questions or concerns, please feel free to contact me on my personal cell phone, 806-535-4174.

Thank You,

Kelly Vurdy goff

In the FY24 Lubbock County Budget, the Lubbock County Commissioners Court have allocated a total of \$500,000 for Public Safety Critical Needs Funding to contracted fire departments in Lubbock County. These funds are separate and apart from the contractual Fire and Rescue Suppressions Services Interlocal Agreement and are not meant to function as a budget reduction mechanism for the fire department or to replace other source(s) of income by another governmental entity. This allocation is specifically allotted to supplement the fire department's budget in meeting the critical needs for equipment. They are meant to exclusively enhance the firefighting capabilities of the fire department and to facilitate the purchase of additional firefighting equipment and/or PPE to bolster the fire department's fire services and functions.

Lubbock County will distribute up to \$500,000 for Public Safety Critical Needs Funding with approved application between the 11 contracted fire departments that are in good standing with the County. Lubbock County shall not accrue any equity or ownership interest in any firefighting and/or PPE equipment purchased by the fire department and likewise, Lubbock County shall not be responsible for licensing, inspection, repairs or maintenance of any firefighting equipment and/or PPE purchased by the fire department. **Applications will be accepted through December 31, 2023.
