

LUBBOCK COUNTY
CONTRACTED FIRE DEPARTMENT
REQUEST FOR PUBLIC SAFETY
CRITICAL NEEDS FUNDING FY2025

In the FY25 Lubbock County Budget, the Lubbock County Commissioners Court allocated a total of \$500,000 for Public Safety Critical Needs Funding to contracted fire departments in Lubbock County. These funds are separate and apart from the contractual Fire and Rescue Suppressions Services Interlocal Agreement and are not meant to function as a budget reduction mechanism for the fire department or to replace other source(s) of income by another governmental entity. This allocation is specifically allotted to supplement the fire department's budget in meeting the critical needs for equipment. They are meant to exclusively enhance the firefighting capabilities of the fire department and to facilitate the purchase of additional firefighting equipment and/or PPE to bolster the fire department's fire services and functions.

Lubbock County will distribute up to \$500,000 for Public Safety Critical Needs Funding with approved application between the 11 contracted fire departments that are in good standing with the County. Lubbock County shall not accrue any equity or ownership interest in any firefighting and/or PPE equipment purchased by the fire department and likewise, Lubbock County shall not be responsible for licensing, inspection, repairs or maintenance of any firefighting equipment and/or PPE purchased by the fire department. **Applications will be accepted through October 31, 2024. Completion of a funding request application does not guarantee Public Safety Critical Need Funding for any given entity.**

Abernathy VFD is looking to replace a 1985 International S1900 that has a walk-in rescue body mounted on it. The body is in really good condition and will be reused on the replacement cab and chassis. This truck serves as our Rescue Unit and carries all extrication tools, spare Self Contained Breathing Apparatus, and much more. It is also certified as a Service Truck for ISO purposes and has all necessary equipment for this certification. The current cab and chassis was a donation from High Plains Drilling and was well used at that time and has a manual transmission. As you are probably well aware, new members to our department having fewer and fewer experience with manual transmissions. We are wanting to purchase a used cab and chassis with plenty of life left with an automatic transmission to replace this truck.

This truck would have to probably have the frame professionally extended or shortened to meet our needs, paint, striping, and possibly tires. All of this would definitely exceed the monies allocated to our department. All costs over the amount would be funded by Abernathy VFD.

If you have any questions, please don't hesitate to reach out to me. My personal cell phone is 806-535-4174.

I have attached pictures denoting what we are looking for or something similar as well as the cab and chassis to be replaced.
