Purpose

The purpose of this announcement is to solicit proposals for projects that are designed to create and foster safer neighborhoods through a sustained reduction in violent crime, including, but not limited to, addressing criminal gangs and felonious possession and use of firearms.

Project Safe Neighborhoods Design Features

Applications should focus on at least one of the PSN design features:

Targeted and Prioritized Enforcement. Applicants are required to develop data-driven strategies to target enforcement efforts in locations with significant violent crime problems and against offenders who are driving the violence. Applicants must focus on three areas:

1. Identify locations within their jurisdiction in greatest need of comprehensive violent crime reduction efforts;
2. Identify offenders who are driving the violence in those locations; and
3. Ensure offenders are prosecuted in the jurisdiction that can provide the most certain and appropriate sanction.

Prevention. The main focus of this PSN design feature is local prevention and reentry programs that can help reduce violent crime by keeping at-risk populations from offending in the first place. Applicants are required to take a comprehensive approach that establishes public awareness and support for the local violent crime reduction effort. Specifically, developing effective relationships with both community leaders and residents, understanding the needs and priorities of the community, and effectively communicating how law enforcement efforts are helping to reduce crime and increase public safety.

Accountability. PSN maintains accountability by measuring results based on outcomes and reduction of crime. Applicants addressing this PSN design feature are required to collect and analyze relevant data that focus on outcomes—i.e. reduced violent crime. Applicants must monitor crime data over time as related to their local PSN Task force’s targeted problems and/or targeted areas.

Gang Task Forces

The PSN program requires that 30 percent of funding be allocated to support gang task forces in the United States regions experiencing a significant or increased presence of criminal or transnational organizations engaging in high levels of violent crime, firearms offenses, human trafficking, and drug trafficking. Applications seeking to support gang task forces will be required to provide information on the gang task force as well as list of participating agencies/units.
