The "Standard Warranty" is part of the warranty protection package available from John Deere Construction & Forestry Company (John Deere Limited in Canada) ("John Deere") to purchasers of new John Deere products ("product"):

STANDARD Warranty is John Deere's standard new product warranty, described in this document, provided at no additional charge to the purchaser.

EXTENDED Warranty is a separate repair contract made available by John Deere for purchasers who wish to complement their Standard Warranty coverage. Complete Extended Warranty details, including coverage options and limitations, are set forth in the Application for Extended Warranty, which is available from authorized John Deere dealers.

STRUCTURALL Warranty applies to certain structural components as listed below and as described in this document.

FACTORY-INSTALLED UNDERCARRIAGE Warranty applies to certain undercarriage components as listed below and as described in this document.

A. STANDARD WARRANTY - GENERAL PROVISIONS

John Deere will repair or replace, at its option, any parts (except those specified below) of a new John Deere product that, as delivered to the original retail purchaser(s), are defective in material or workmanship. Performance of this warranty will be free of charge for parts and labor, except as otherwise stated below. Standard Warranty applies only to purchases from John Deere and authorized John Deere dealers and, except as otherwise provided in the next sentence and section L below, is extended only to the original retail purchaser of the product. Remaining Standard Warranty applicable to a used John Deere product is transferred to a subsequent purchaser of the product only if the subsequent purchaser requests a transfer from an authorized John Deere dealer before the product's Standard Warranty expires. Coverage begins on the date of delivery of the product to the original retail purchaser. For purposes of this warranty, a product that has been rented, used for demonstration purposes for 150 or more hours, or otherwise used prior to its original retail purchase has been "used" for the total duration of such use. Warranty statements required by law covering engine emissions-related parts and components are found on a separate written warranty certificate provided to the purchaser at the time of the original retail purchase.

B. WHAT IS COVERED BY STANDARD WARRANTY

All parts of a new John Deere product (except those noted in Sections D and E below) are covered during the Standard Warranty period set out above.

C. EXCLUSIVE REMEDY

The repair or replacement of covered parts or components that are defective, as provided in Sections A, B, D.2 and D.3 herein, shall be the purchaser's exclusive remedy for any defect in the product. However, if after repeated attempts such repair or replacement fails to correct the performance problem caused by the defect, the purchaser's sole remedy shall be a refund of the amount paid for the product (in exchange for a return of the product), excluding any transportation charges, license fees, taxes and insurance premiums, and less a reasonable allowance for use of the product prior to its return. In no event will the dealer, John Deere or any company affiliated with John Deere be

liable for any incidental or consequential damages, including but not limited to loss of profits, rental of substitute equipment or other commercial loss. Correction of defects in the manner provided above shall constitute fulfillment of all liabilities of the Dealer, John Deere, or any company affiliated with John Deere to the purchaser or any other person, whether based upon contract, tort, strict liability, or otherwise. This limitation does not apply to claims for personal injury.

D. ITEMS COVERED SEPARATELY -

1. Standard Warranty does not apply to batteries, radios, tires, cameras, or to Cummins, MTU or Detroit Diesel Engines installed in John Deere products, which are covered by separate written warranties.
2. Factory-Installed Undercarriage Warranty covers all non-rubberized factory-installed undercarriage wear components for 3 years or 4,000 hours from the date of delivery to the original retail purchaser, whichever occurs first (unless terminated earlier under Section F, below). For purposes of this warranty, a product that has been rented, used for demonstration purposes for 150 or more hours, or otherwise used prior to its original retail purchase has been "used" for the total duration of such use. In addition to the items listed in section E below, Factory-Installed Undercarriage Warranty does not cover: failures due to wear, machine application, maintenance practices, or improper machine configuration; removal and installation labor; transportation or hauling costs; unapproved parts; non-wear items; and rubberized undercarriage components such as rubber tracks. Warranty claims will be pro-rated based upon wear of the failed component and whether track shoe width is approved by John Deere. Factory-Installed Undercarriage Warranty does not apply to Scraper Tractors.
3. StructurALL Warranty for new John Deere Products (except Compact Excavators & Loaders, Skid-Steer Loaders, Compact Track Loaders, Scraper Tractors, Pull-Type Scrapers, and Forestry Attachments, which are not eligible for StructurALL Warranty) begins at the date of delivery to the original retail purchaser and ends (unless terminated earlier under Section F, below) after three (3) years, or 10,000 hours (whichever occurs first). For purposes of this warranty, a product that has been rented, used for demonstration purposes for 150 or more hours, or otherwise used prior to its original retail purchase has been "used" for the total duration of such use. **StructurALL Warranty applies only to the following structural components listed below as installed on the product at the time of original manufacture.** If a particular component is not listed below it is not covered by StructurALL Warranty.

A. EXTENDED WARRANTY - GENERAL PROVISIONS.

During the selected coverage period, John Deere Construction & Forestry Company (Worldwide Construction & Forestry Division, a division of John Deere Canada ULC, in Canada) ("John Deere") will repair or replace, at its option, covered components (either factory installed components or genuine John Deere replacements installed by an authorized John Deere dealer) of the product identified on the first page of this document that are defective in material or workmanship, subject to the terms and conditions set forth on both pages of this document. Such repair or replacement will be free of charge for parts and labor, except as otherwise stated below.

Under each coverage option, the Extended Warranty period begins when the product's corresponding Standard Warranty ends, and continues (unless terminated under Section E below) until the expiration selected on the face of this document. The coverage period ends after the specified number of months or when the machine's hour meter reaches the specified hour limitation, whichever occurs first.

Extended Warranty is available only through authorized John Deere dealers for John Deere products, and may be purchased at any time before the product's Standard warranty, or Extended Warranty expires. Extended Warranty is not effective unless and until (1) a properly completed application for coverage is submitted to John Deere, (2) and the coverage charge is paid. Once Extended Warranty becomes effective, John Deere's obligations hereunder extend only to the applicant identified on the first page of this document, unless remaining coverage is transferred to a subsequent purchaser of this product in accordance with Section H below.

B. FLUID ANALYSIS REQUIREMENT AND MAINTENANCE.

Fluid Analysis: As a condition of coverage, the following Extended Warranty contracts (sold on or after 9 June 2008) will require fluid analysis:

- Extended Warranty Contracts on excavators with 100 horsepower and above.
- All other Construction & Forestry products (including excavators under 100 horsepower) with Extended Warranty Contracts above 5000 coverage hours.

Compact Excavators, Compact Track Loaders, Skid Steers, Compact Loaders, Scraper Tractors and Pull-Type Scrapers are excluded from this requirement. Customer is responsible for completing hydraulic/hydrostatic oil analysis at 500 hour intervals for specific models and hours of coverage. If sample frequency is not maintained, and repairs occur, customer will be responsible for 20% of the repair cost. An oil sample using John Deere specifications must be submitted on or before the effective date of the Extended Warranty contract.

Maintenance: The owner (lessee, for leased products), at his or her own expense, must maintain the product in accordance with the product's Operator's manual and, upon request, provide adequate records verifying maintenance.

L SERIES SKIDDERS, L SERIES WHEELED FELLER BUNCHERS, M SERIES TRACKED FELLER BUNCHERS: Additional Fluid Analysis & Maintenance may be required. As a condition to receive a Powertrain Ultimate Uptime Extended Warranty and Preventative Maintenance contract, the following will be required:

- An authorized John Deere dealer must perform all major services, including without limitation, scheduled maintenance in accordance with the Operator's Manual for the duration of the Extended Warranty Term.
- Submit oil samples through ALS after every service interval, regardless of who performs the service (customer or dealer).
- Use John Deere parts and fluids for every service interval, regardless of who performs the service (customer or dealer).

FAILURE BY THE CUSTOMER TO COMPLY WITH THESE REQUIREMENTS WILL VOID POWERTRAIN EXTENDED WARRANTY COVERAGE.

This limitation does not apply to claims for personal injury.

G. OBTAINING EXTENDED WARRANTY SERVICE. When making such a request, the owner (or lessee) must present his or her Application for Extended Warranty and John Deere's written confirmation of coverage (transferees under Section H below must present John Deere's written confirmation of coverage transfer), make the product available at the dealer's place of business, and inform the dealer in what way the product is believed to be defective.

Extended Warranty repairs can be made in the field if the purchaser and servicing dealer so desire.
